

## Consulting Expertise

Electrical System Design	Electrical Specification Compliance	MEP Coordination
Electrical Constructability Review	Electrical Estimating/Budgets	Material Procurement
Quality Control/Quality Assurance	Electrical Troubleshooting	Craft Labor Scheduling
Staff Training & Development	Electrical Construction	Electrical Code Compliancy

## Market Sectors

Healthcare	Higher Education	K-12 Schooling
Sport Venues	Mixed Use Multi-Story Buildings	Restaurants
Apartments/Condominiums	Student Housing/Dorm Rooms	Commercial Kitchens
Manufacturing	Retail/Warehouse/Storage	Casinos

## Systems

480/277V Power Distribution	208/120V Power Distribution	Fire Alarm
Nurse Call	Utility Infrastructure	Emergency Backup Power
Area of Rescue	Distributed Antennae Systems (DAS)	Electrical Metering
Light Fixtures & Lighting Controls	Grounding/Bonding	Lightning Protection

## Experience/Qualifications

I started my career in the Electrical Construction industry in 1995 as an electrical apprentice. Over the span of my 31-year electrical career, I have obtained intricate knowledge of the Electrical Construction industry while working as an Apprentice, Journeyman, and Supervising electrician, as well as a Project Manager, Sr. Project Manager, and Project Executive. I obtained my Oregon General Electrical Supervisor's license in 2010 (license #5711S), and I compliment my technical expertise with solid project management fundamentals, along with a passion to provide excellent customer service. My ability to identify and solve issues quickly in a collaborative fashion help deliver safe, reliable, efficient, and cost-effective electrical solutions.
